# SEA MACHINES

YOUR FLEET, ONE VIEW

Browser-based platform for SM300-enabled vessels that delivers live and historical fleet data in one unified view.

See every detail of vessel behavior: navigation, mechanical, and situational - in real time.

CAPABILITIES

- Track multiple vessels in real time

- View 100+ metrics per vessel: position, speed, heading, fuel burn, engine RPM, depth, AIS, radar, AI-ris contacts

- Query fleet data programmatically via API

- Export logs for reporting or analysis

FLEETVIEWER
